
Using Ongoing Assessment Data to Support School Readiness Goals for Infants and Toddlers

National Indian Head Start Directors' Association

Sheryl Hammock, ECE Specialist

Region XI, FHI 360

shammock@fhi360.org

Donna Britt, Training Coordinator

Early Head Start National Resource Center

dbritt@zerotothree.org

Jan Greenberg, Senior Writer/Training Specialist

Early Head Start National Resource Center

jgreenberg@zerotothree.org

Objectives

- Discuss the difference between screening and assessment.
- Define ongoing assessment.
- Examine the role of observation in the ongoing assessment process.
- Discuss the process and purposes of collecting and using the information gathered.
- Discuss the importance of individualizing care for infants and toddlers.

Getting to Know Each Other

Ongoing Assessment?

Photos contributed by EHS NRC

When you think about “ongoing assessment,” what emotion do you experience?

- Select the photo that best represents your feelings.
- At your tables or in a small group,
 - ✓ Introduce yourself –name, position, program
 - ✓ Share why you selected the photo/emotion

School Readiness for Infants, Toddlers, and Their Families

The child's developing capacity to

- Self-regulate
- Develop close, secure personal relationships with adults and peers
- Demonstrate curiosity in, pay attention to, and explore people and objects in the environment
- Demonstrate a sense of self-confidence
- Communicate effectively

Developing Capacity...

- Depends on having good health and receiving proper nutrition
- Happens within the context of close, nurturing, culturally responsive relationships

School Readiness Goals § 1307.3(b)(1)

Five Essential Domains For Birth to Five

What do you know?

- About screening?
- About assessment?

Screening and Assessment

Are screening and assessment
the **same**?

Photo source unknown

Answer: **NO**

Although “screening” and “assessment” share many common characteristics, they are fundamentally different.

Contributed by NCCLR

EARLY HEAD START
National Resource Center™

Screening and Assessment Similarities

- Gathers information
- Child focused
- Birth – 5 and beyond
- Crosses multiple domains
- DATA that supports decisions
- Selection of instruments

Photo courtesy of EHS NRC

Contributed by NCCLR

EARLY HEAD START
National Resource Center™

Contrasts

Screening is...

Single-purpose

- Should the child be referred for a formal evaluation?

Assessment is...

Multipurpose

- Best program placement option
- Child progress
- Program effectiveness
- Optimal teaching

Contributed by NCCLR

EARLY HEAD START
National Resource Center™

Contrasts

Screening Instruments

- Designed for single use.
- Data are not meant to be aggregated over time.

Assessment Instruments

- Designed to be repeated.
- Data are intended to be aggregated over time.

Contributed by NCCLR

EARLY HEAD START
National Resource Center™

One More Point

Screening and assessment are different but they do not need to be completely separate.

Any information about a child's strengths, knowledge, skills, and abilities identified during screening can be used as ongoing assessment data.

Photo courtesy of EHS NRC

Contributed by NCCLR

EARLY HEAD START
National Resource Center™

Is Screening the Same for All Children?

Dual Language Learners (DLLs)

–Acquire two or more languages simultaneously (i.e., from birth)

OR

–Learn a second language while continuing to develop their first language

Contributed by NCCLR

EARLY HEAD START
National Resource Center™

Key Performance Standard

1308.6 (b)(3) states:

When appropriate
standardized
developmental
screening instruments
exist, *they must be used.*

Photo courtesy of EHS NRC

Contributed by NCCLR

EARLY HEAD START
National Resource Center™

Intentional Decision Making

- Identify the children in your program.
- Review available instruments.
- Identify instruments specific to screening.
- Consider the relevant information and apply.

Photo courtesy of EHS NRC

Contributed by NCCLR

EARLY HEAD START
National Resource Center™

Table Talk: Screening Tools

At your tables discuss:

- What screening tools does your program use?
- Who administers the tool?
- How is the administrator trained in using the tool?
- What is the age range of the tool?
- How are parents engaged in the screening?
- How long does it take to administer the screening based on the tool you use?
- What do you do with the results?

What Is Assessment?

OHS Definition

1304.31: (1) *Assessment* means the ongoing procedures used by appropriate qualified personnel throughout the period of a child's eligibility to identify:

- (i)** The child's unique **strengths** and needs and the services appropriate to meet those needs; and
- (ii)** The resources, priorities, and concerns of the family and the supports and services necessary to enhance the family's capacity to meet the developmental needs of their child.

Contributed by NCCLR

EARLY HEAD START
National Resource Center™

Ongoing Assessment: What It Is

- A system of regular information collection (child data) throughout child's enrollment
- Written observations of a child's behaviors
- Identifies a **child's strengths** and **needs** as well as **services** to meet needs.

Ongoing Assessment: What It Does

Supports :

- Individualizing
- Family engagement
- Positive child outcomes

Informs:

- The curriculum to **maximize** child's learning

Understanding Assessment Terminology

- Formboard
- Associative play
- Preposition
- Plural
- Cube
- Stroke
- Supine
- Gratification
- Secure attachment
- Three-point finger grip
- Multisyllabic
- Pincer grasp
- Parallel play

E-LAP -- Older Toddler (24 – 33 Months, Selected Skills)

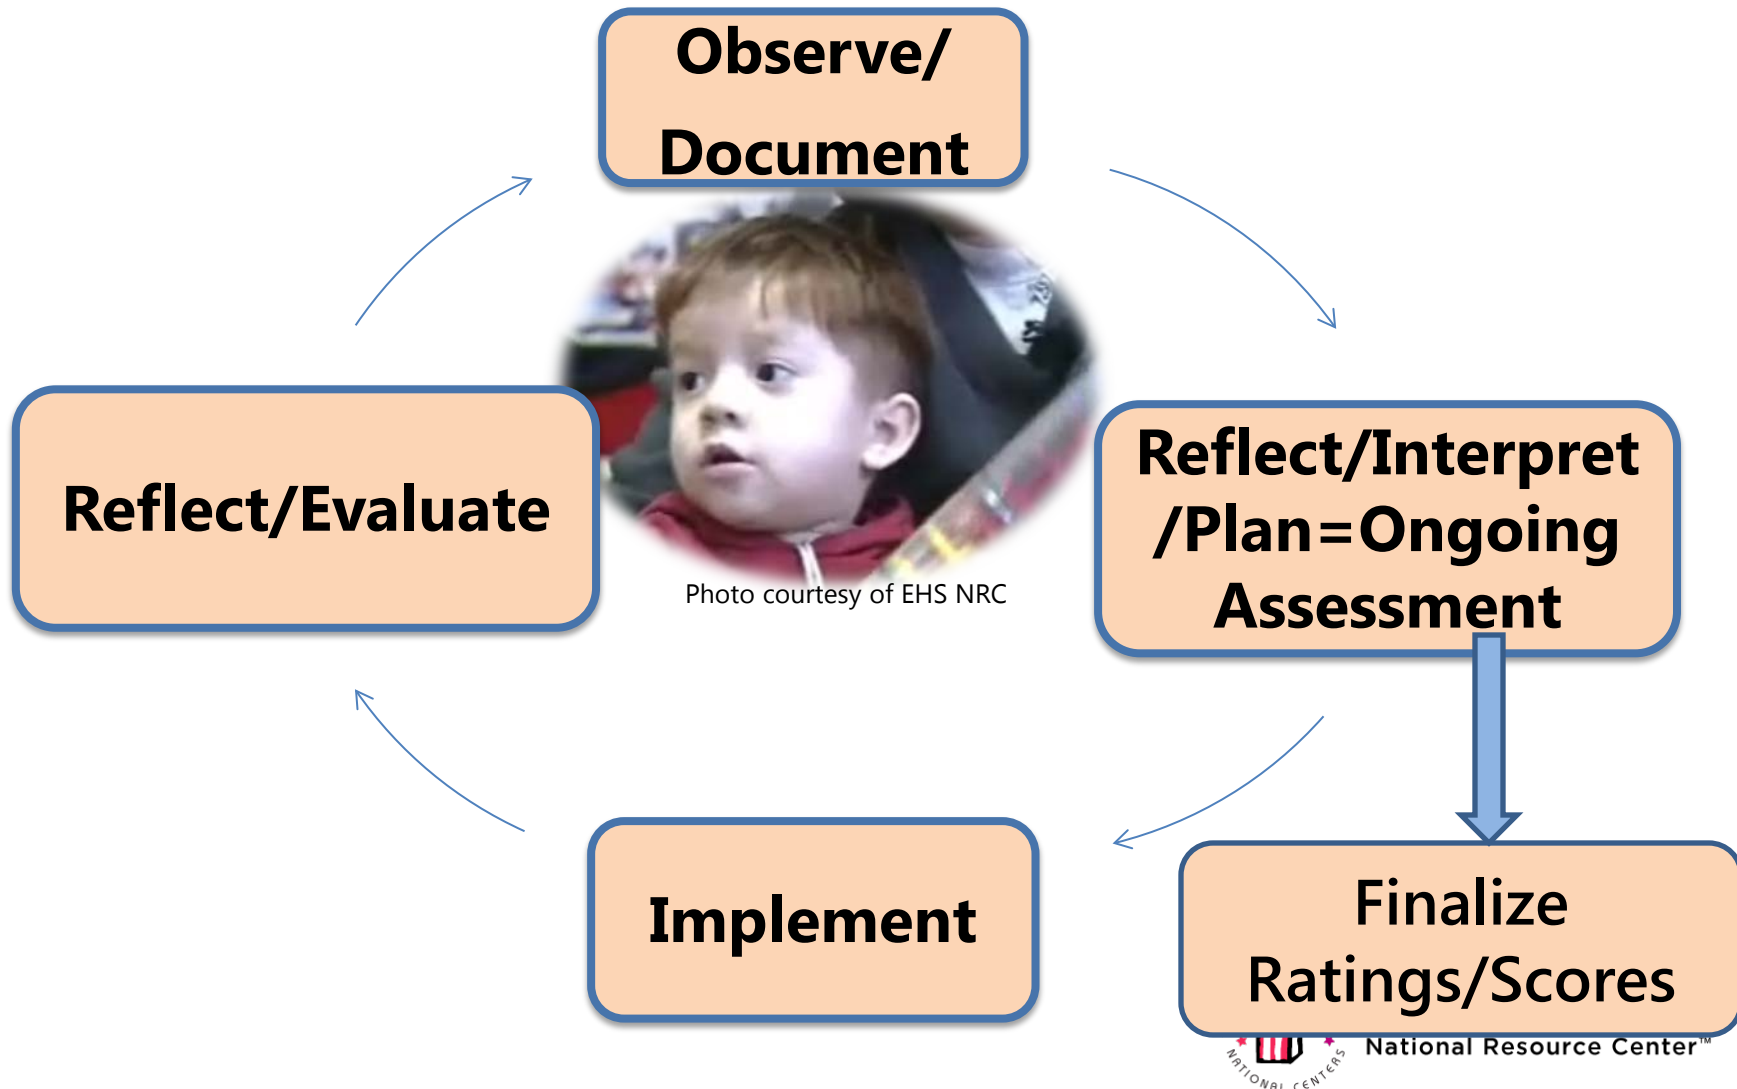

Social-Emotional Development –	Language Development	Cognitive Development	Fine Motor Development	Gross Motor Development
<p>24 Months</p> <p>29. Begins to claim and defend ownership of personal things</p> <p>30. Initiates own play activities</p> <p>31. Enjoys role-playing; wraps up doll and puts to bed</p>	<p>24 Months</p> <p>40. Names 3 objects</p> <p>41. Refers to self by name</p> <p>45. Uses pronouns – I, you, me –not always correctly</p> <p>47. Understands 2 prepositions</p> <p>48. Speaks 50 or more words</p>	<p>24 Months</p> <p>74. Names 3 objects</p> <p>75. Builds tower of 6-7 cubes</p> <p>76. Refers to self by name</p> <p>77. Comprehends and asks for “another”</p> <p>80. Adapts to reversal of formboard in 4 trials</p>	<p>24 Months</p> <p>57. Attempts to fold paper</p> <p>58. Builds tower of 6-7 cubes</p> <p>59. Imitates vertical stroke</p> <p>60. Imitate circular stroke</p> <p>61. Adapts to reversal of formboard in 4 trials</p>	<p>24 Months</p> <p>83. Jumps in place</p> <p>84. Walks approximately on line</p> <p>85. Jumps from bottom step</p>
<p>28 Months</p> <p>32. Inflexible and rigid in behavior</p>	<p>30 Months</p> <p>49. Uses plurals</p> <p>50. Shows or tells use of one or more familiar objects on request</p> <p>51. Names or identifies objects by use</p> <p>52. Names 5 pictures</p> <p>53. Points to 7 Pictures</p> <p>54. Gives full name when asked</p>	<p>27 Months</p> <p>83. Makes train of cubes</p> <p>84. Imitates drawing vertical line, horizontal line, and circle</p> <p>86. Understands size differences</p>	<p>27 Months</p> <p>63. Makes train of cubes</p> <p>64. Imitates drawing vertical line, horizontal line, and circle</p>	<p>28 Months</p> <p>86. Walks backward</p>
<p>33 Months</p> <p>33. Begins ‘associative play’ activities</p> <p>34. Names or points to self in photographs</p>		<p>30 Months</p> <p>89. Builds tower of 8 cubes</p> <p>88. Names or identifies objects by use</p> <p>92. Imitates cross</p> <p>93. Gives full name</p>	<p>30 Months</p> <p>65. Builds tower of 8 cubes</p> <p>66. Holds pencil with thumb and forefinger instead of fist</p> <p>67. Imitates cross</p>	<p>30 Months</p> <p>87. Stands up from supine</p>

1. Find someone you do not know to be your partner
2. Introduce yourself – your name, where you work, what you do
3. Await further instructions

What and Why?

What?

- An instance of noticing or perceiving
- Watching and listening
- Paying close attention to each child

Why?

- Understand child's goals and intentions
- Individualize care and learning opportunities
- Measure and check progress
- Build relationships with families

About Enrique

Age: 24 months

Length of time in program: 14 month

Family's goals for Enrique

- Be happy
- Be excited about learning new things
- Will be able to speak good English
- Get along with others
- Respect his family and elders

Observation: More About Enrique

Observation: Objective vs. Subjective

Photo courtesy of EHS NRC

- Descriptions of actions
- Descriptions of vocalizations
- Direct quotes of language
- Descriptions of facial expressions and gestures
- Descriptions of creations

Observation: Identifying “Lenses”

Influences

- Culture
- Temperament
- Personal interests and feelings
- Professional knowledge and experience

Photo courtesy of EHS NRC

EARLY HEAD START
National Resource Center™

Observation: Setting Up Systems

Photo courtesy of EHS NRC

EARLY HEAD START
National Resource Center™

Observation: Setting Up Systems

- **INCLUDE FAMILIES!**
- Plan times to observe.
- Be prepared to be spontaneous.
- Decide how to organize and store.
- Find time to file.
- Decide how often to review.
- What is working well?
- What could be improved or added?
- What are challenges?
- What are possible solutions?

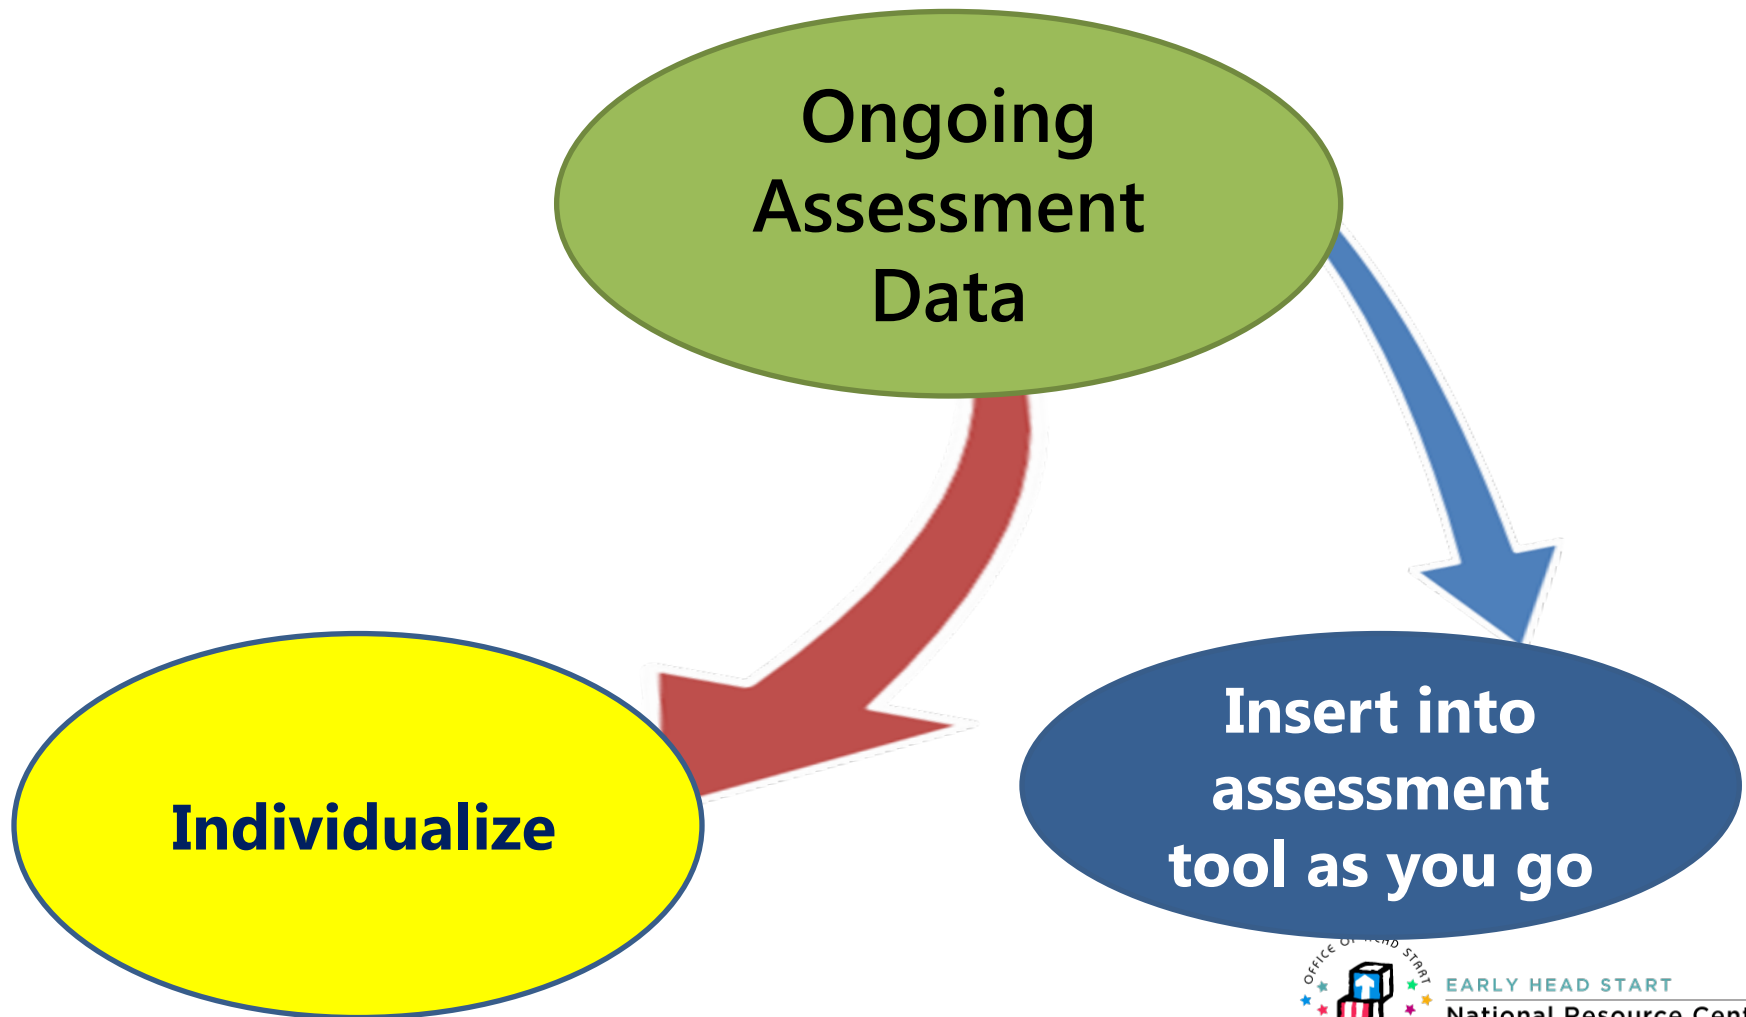

Photo courtesy of EHS NRC

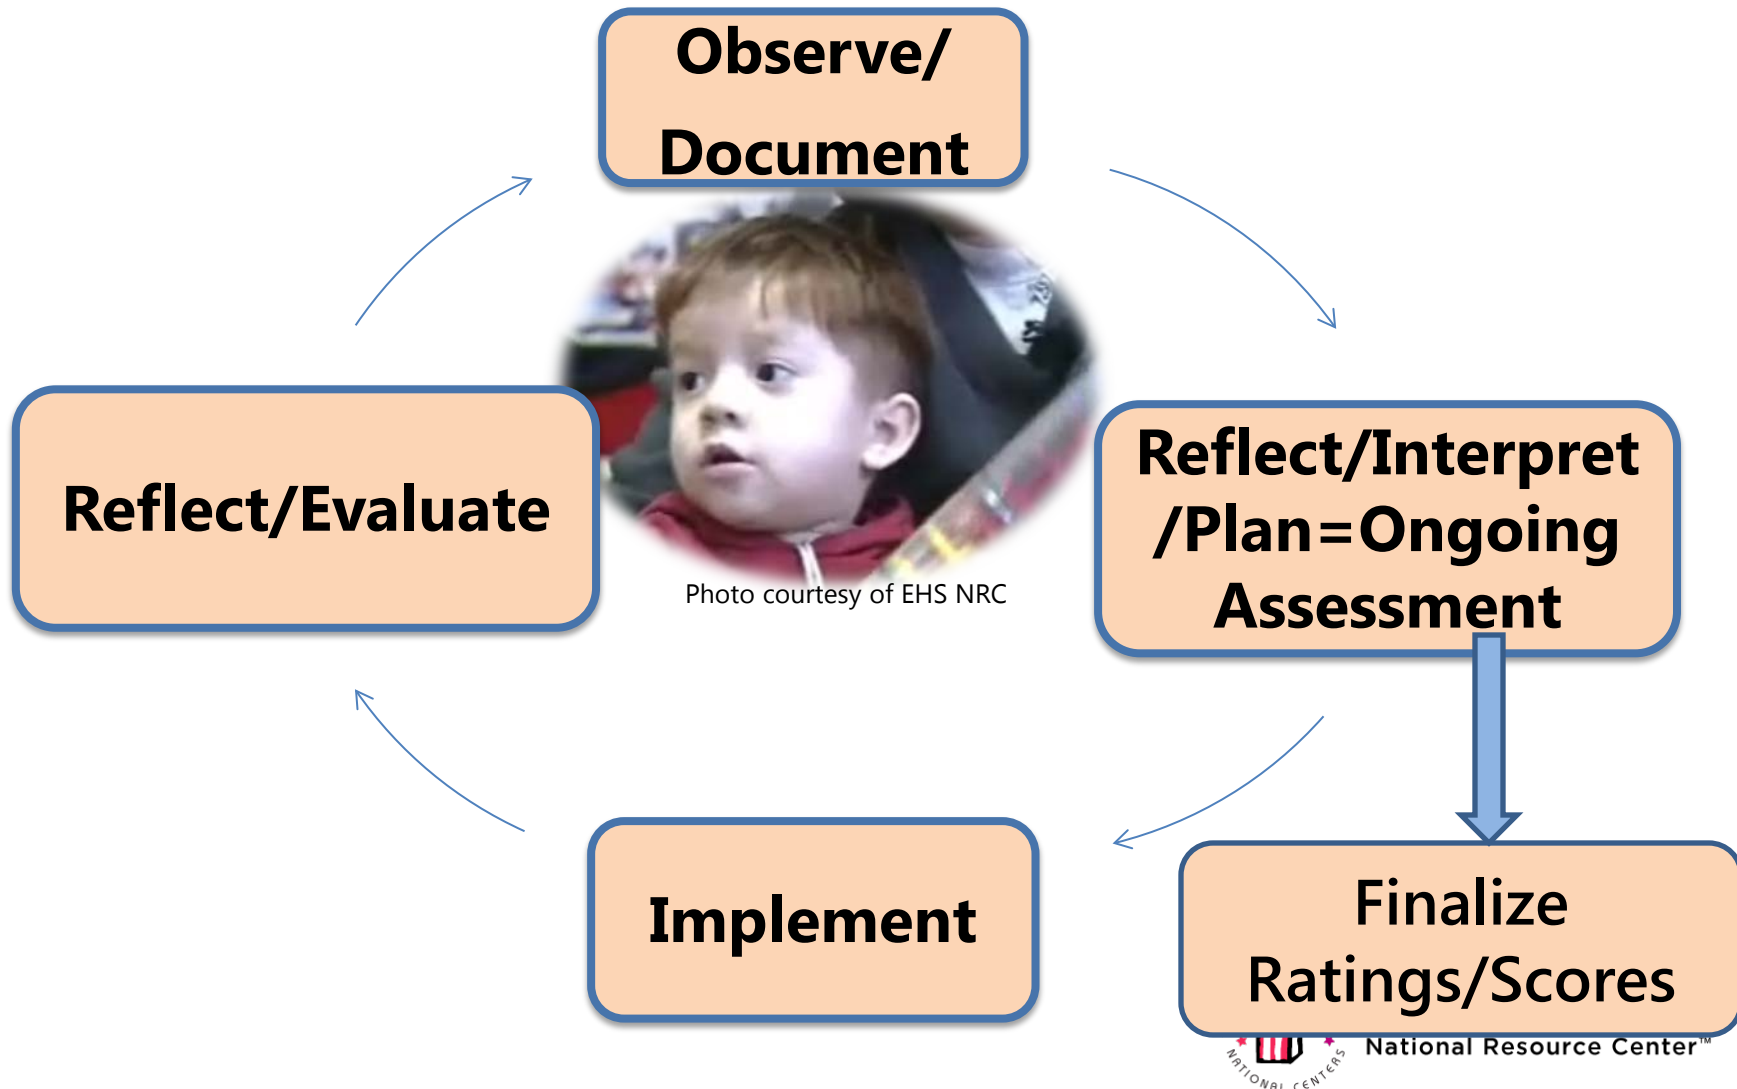

EARLY HEAD START
National Resource Center™

To Summarize...

The Planning Process

Individualizing: What Does it Mean?

Tailoring care that is responsive to each infant and toddler to support development and learning based on

- observation and ongoing assessment;
- active partnering with families; and
- knowledge of child development.

Why Do It? More Things to Consider

- Provides optimal learning opportunities
- Takes into account families' goals for their child
- Ensures inclusive care and services

Photo courtesy of EHS NRC

Reflect/Interpret/Plan

Photo courtesy of EHS NRC

EARLY HEAD START
National Resource Center™

Reflect and Interpret

Reflect

- Review data.
- Ask questions about what the data say about each child and family.

Interpret

- Answer questions by making educated guesses about what the data reveal.
- Decide next steps.

About Enrique

Age: 24 months

Length of time in program: 14 months

Family's goals for Enrique

- ☐ Be happy
- ☐ Be excited about learning new things
- ☐ Will be able to speak good English
- ☐ Get along with others
- ☐ Respect his family and elders

Enrique

Reflect and Interpret:

Three Approaches

- Responsive interpretation
- Interpretation for planning
- Evaluative interpretation

Photo courtesy of EHS NRC

EARLY HEAD START
National Resource Center™

Reflect and Interpret: Some Things to Consider

Photo courtesy of EHS NRC

- Accuracy and first impressions
- “Lenses”
- Positive, current, flexible expectations
- More than one interpretation

Reflect and Interpret:

Red Flags

Photo courtesy of EHS NRC

EARLY HEAD START
National Resource Center™

Plan

Photo courtesy of EHS NRC

EARLY HEAD START
National Resource Center™

Considerations for Planning

- School readiness
- Curriculum
- Interactions
- Routines
- Daily Schedule
- Experiences
- Environment

Photo courtesy of EHS NRC

Plan: What to Do?

- Generate ideas
- Choose what to do
- “Plan for possibilities”

Photos courtesy of EHS NRC

Making Connections

- Use your written observations of Enrique and other resources provided.
- Think about reflective questions.
- What conclusions might you come to about Enrique?
 - If Enrique was a child in your setting, what goals might you have for him?
 - What might you do to support his development, learning, and readiness for school?

Implement

"When experiences are planned and tailored to the developmental needs of infants and toddlers, they become engaged, active learners."

(NITCCI, *Infant/Toddler Curriculum and Individualization*, pg. 28)

Photos courtesy of EHS NRC

Following a child's lead ...
"create[s] with the child a learning experience that is personally meaningful and responsive, moment by moment."

(CA DOE, *Infant/Toddler Learning and Development Program Guidelines*, pg. 107)

EARLY HEAD START

National Resource Center™

Reflect/Evaluate

Ask questions!

- How did it go?
- What worked well? Why?
- What didn't work well? Why?
- What changes could be made?

Wrapping Up

- Understand each infant and toddler
- Support family's role as child's first and most important teacher
- Be intentional

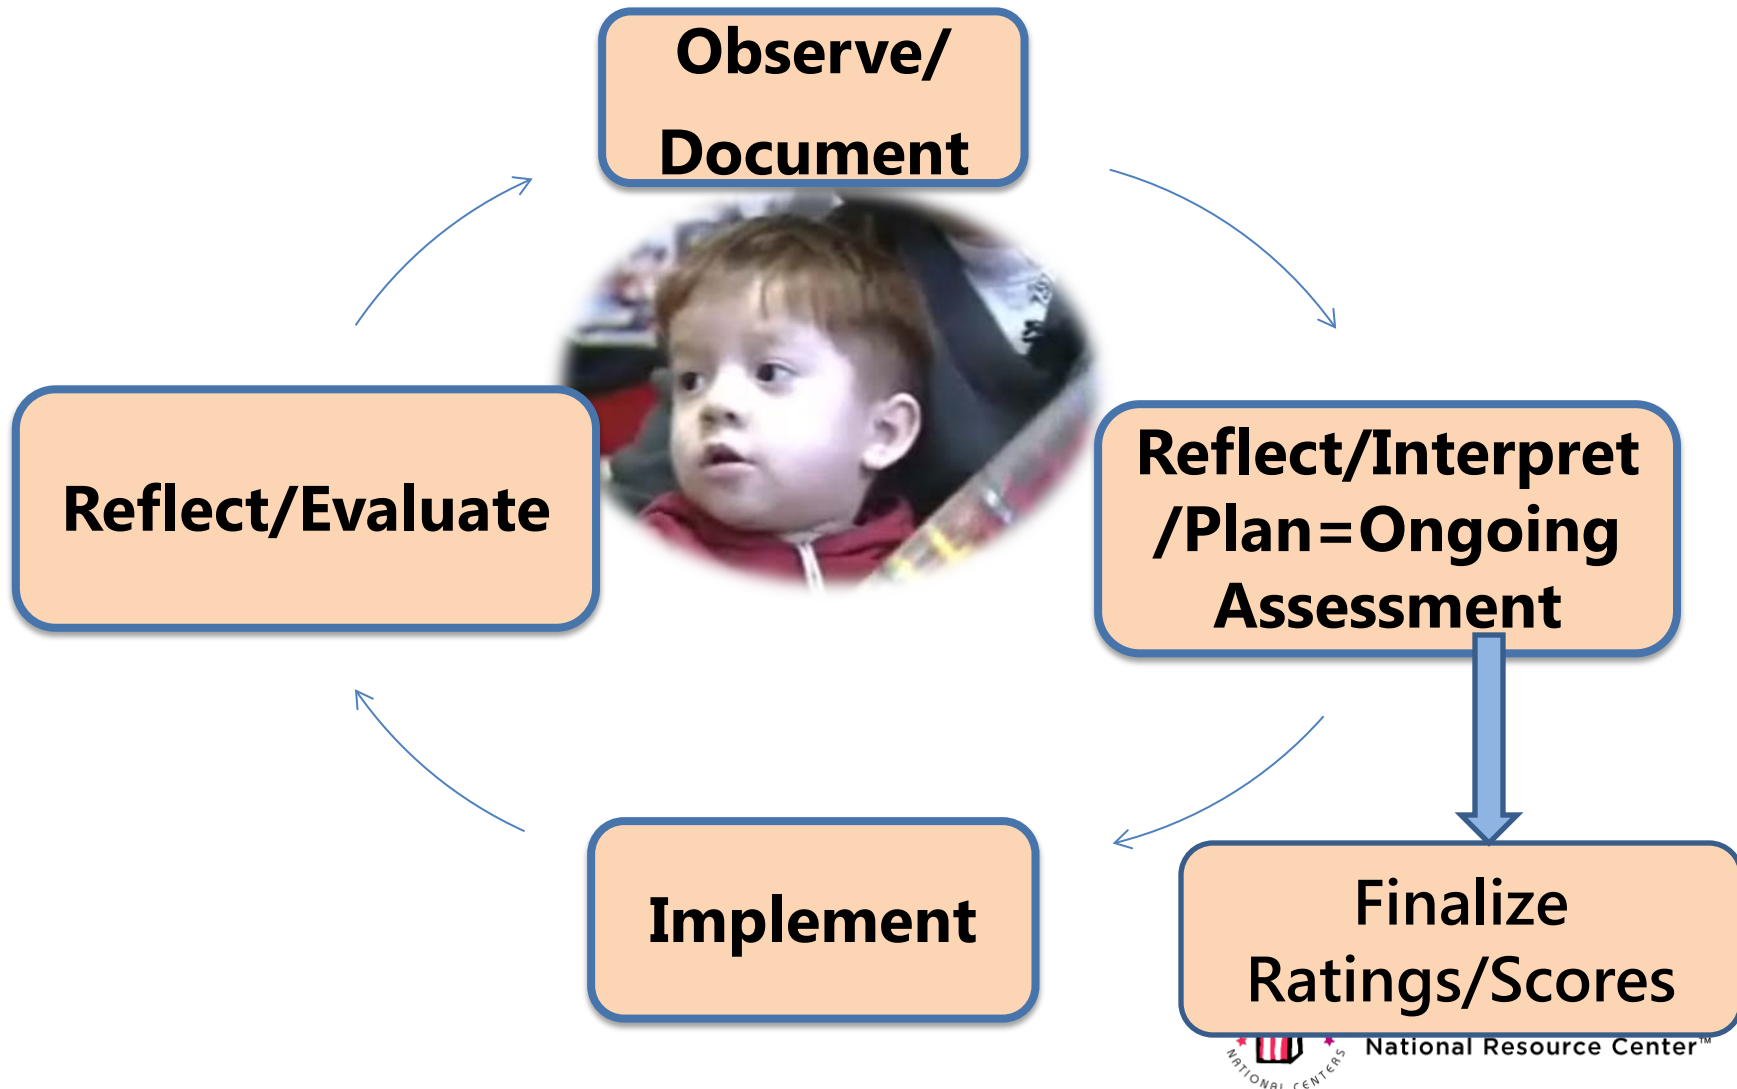

Photo courtesy of EHS NRC
