War on Poverty

As the ‘war on poverty’ continues the head start program has shown us that the true weapon against a life of limited options is education.

Head Start program continues to make a difference in the lives of many youth, preparing them for elementary school and education beyond.

If we were to take a moment to look into the childhood of some of our countries’ most successful business men and women, medical providers, policy changers and leaders. I’m sure we would find a few head start graduates among them.
Program Characteristics

Forty-two percent of grantees operated both HS/EHS

Thirty-three percent of grantees operated HS preschool services only

Twenty-five percent of grantees operated EHS
“Look we want parents to have some say in how the money is spent, how the program is developed, what is happening to the children get them involved in activities.”
• The Head Start Act legislates how Head Start programs should be governed. The Act specifies the types of people who should serve on a governing body and their legal and fiscal responsibilities.
  • It describes the relationship of the governing body to the Head Start Policy Council and the management team.

• The Head Start Program Performance Standards. Describe in detail how Head Start programs should be managed and run. The Standards are part of the Code of Federal Regulations (CFR).
